

**NOTE: This page should be completed only if a district has not expended IDEA-B funds originally budgeted for students with disabilities enrolled in nonpublic schools and the funds are being carried-over for use in-district.
DO NOT COMPLETE THIS PAGE: If the entire proportionate share will continue to serve non-public school students or if the LEA is a state agency, vocational school or charter school.**

**INDIVIDUALS WITH DISABILITIES EDUCATION ACT, PART B
PARTICIPATION OF STUDENTS WITH DISABILITIES IN PRIVATE SCHOOLS
ATTACH TO THE COMBINED FY 2002 BASIC AND PRESCHOOL CARRY-OVER APPLICATION
IF APPLICABLE**

LEA: _____

PROJECT # _____

COUNTY: _____

1. Numbers and proportionate share for students with disabilities parentally placed in nonpublic (private) schools:

	BASIC (AGES 3-21)	PRESCHOOL (AGES 3-5)
Number of Nonpublic Students (as of 12/1/00)	(a)	(a)
Proportionate share (see Allocation Notice) as required by § CFR 300.453	(b) \$	(b) \$
Number of Nonpublic Students ages 3,4 and 5 not in Kindergarten (as of 12/1/00)	(c)	(c)
Proportionate share required for students ages 3, 4 and 5 not in Kindergarten	(d) \$	(d) \$
Number of Nonpublic students who received services through IDEA-B funds	(e)	(e)

2. Did the district expend IDEA-B funds on students with disabilities in nonpublic schools? _____(Y/N) If so, how much \$_____ (Basic) and/or \$_____ (Preschool)?

Minimally, districts must have expended a proportionate amount of IDEA funds on 3, 4 and/or 5 year old children not in kindergarten, unless the district can show the use of local funds on these children.

3. The district plans to carry over \$_____ (Basic) and/or \$_____ (Preschool) IDEA-B funds, previously earmarked for services to students in nonpublic schools, for use in-district.

4. If services were provided through local funds, list the type of service in Column 1. If Chapter 193 and/or local funds were expended to provide part or the entire required proportionate share of services, documentation of these services, in the form of a summary letter from the service provider or a copy of the local budget if local funds were used, is required. The totals in Columns 5 and 6 should be rounded to the nearest whole dollar.

	COLUMN 1	COLUMN 2	COLUMN 3	COLUMN 4	COLUMN 5	COLUMN 6
	Service	Rates	# Students (ages 3,4 & 5)	# Students (ages 6-21)	PRESCHOOL Total amount per service	BASIC Total amount per service
Chapter 193 services	Annual Review	\$ 355.50				
	Supplementary Instruction	\$ 785.81				
	Speech Correction	\$ 901.06				
Services through Local funds						
Grand total

IDEA-B Nonpublic FY 2002
Final Report/Carry-Over Application Instructions

This attachment is only required if the district is applying to carry-over unexpended nonpublic funds for use in-district. This form does not need to be completed by state agencies, vocational schools, and charter schools.

NOTE: Offset of proportionate share through the use of Chapter 193 is not applicable to 3, 4 and 5 year olds not in kindergarten.

Complete the information for the specific grant where proportionate share funds are being applied to be carried over for use in-district. This means that it could show Basic or Preschool or both.

- Item 1 The information in items (a)-(d) (Basic and/or Preschool) should match the original application information. The information in 1(e) will reflect the students actually served by IDEA-B funds in FY 2002.
- Item 2 The district should report how much of the IDEA-B funds (Basic and/or Preschool) were expended on these students. If the district identified 3, 4 and/or 5 year olds not in kindergarten then they should have expended at least that much and show it here (or plan on expending at least that amount in their Carry-Over Application). If the district used local funds to provide services to 3, 4 and 5 years old in nonpublic schools instead of IDEA-B funds this would be shown on the chart in Item #4. The amount expended through either means must equal the required proportionate share in 1(d) Basic and/or Preschool or be expended through IDEA-B funds. Districts have the option to expend more than their required proportionate share as identified in Item #1b (Basic and/or Preschool).
- Item 3 The district should list the amount of IDEA-B funds (Basic and/or Preschool) originally earmarked for use with students in non-public schools that they now wish to carry-over for use in-district.
- Item 4 If the LEA is going to use IDEA-B funds previously earmarked for services to students in nonpublic schools for use in-district, this chart must be completed and supporting documentation in the form of summary letter(s) from service providers or local budget must be attached. The proportionate share (item # 1(b)) required for services to students in nonpublic schools **must** be met either through IDEA-B, local funds and/or Chapter 193. **This is the last year that this is permissible. Column 5 (which represents the Preschool amount) is equal to the amount per service in Column 2 times the # of students listed in Column 3. Column 6 (which represents the Basic Amount) is equal to the amount per service in Column 2 times the sum of the # of students in Columns 3 and 4. Columns 5 and 6 (if applicable) should be totaled at the bottom. The amount in the totals section when added to the amounts in item # 2 must meet or exceed the amounts listed in #1(b).**
- Item 5 All signatures and dates should be completed.
